

LEVEL GAUGE

A. Magnetic Level Gauge

Applications

- Can be used across practically all liquids including inflammable, corrosive, and hazardous liquids
- Inter-phase detection
- Liquids at high temperature and pressure
- Underground tanks

B. Reflex Level Gauge

C. Transparent Level Gauge

Applications

- Saturated steam: Up to 1740 psig (120bar)
- Other media: Up to 2610 psig (180bar) at 752oF (400oC)
- Observation of interface
- Observation of color and clarity of liquid
- Observation of corrosive liquids, which attack glass
